Research Interest

- Ranged across the field of Orbit , Neuro-ophthalmology, Oculo plastics , Lacrimal disorders and Pediatric Ophthalmology & Strabismus.
- Application of Mechanical Endo-nasal Dacryocystorhinosthomy (MEDCR)
- Application of new material for brow suspension in cases with poor levator function ptosis
- Selective reconstructive eyelid surgery with innovation
- Surgical special planing for unusual form of strabismus
- New surgical procedure for dystichiasis with posterior lamella dissection and amniotic membrane graft.
- Electronic Medical Records in the field of ophthalmology
- Alloplastic materials in oculoplastic surgeries
- Blepharoplasty variable techniques and preoperative planning

Proposals

- Evaluation of the relationship between inter papillary distance and inner outer inter canthal distance in 3 months to 20 years Old Persian,
Code Number 83125
- Evaluation of Endonasal Dacryocystorhinostoy in obstructive disorders of lacrimal system
Code Number 83162

- Frequency of ocular manifestation of hyperthyroidism and severity correlation between the ocular manifestations and disease activity
Code Number 82061
- A comparison of presbyopia correction with and without astigmatic correction
Code Number 83040
- The evaluation of intermittent exotropia control level with Worth 4 Dot test at far
- The evaluation of high dose steroid therapy in management of Traumatic Optic Neuropathy (TON). Code Number 86203
- Comparative evaluation the effects of four controlled hypotensive regimens including esmolol, TNG, Remifentanyl and Halothan with general anesthesia on bleeding during dacryocystorhinostomy DCR surgery
- Establishment of Electronic Medical Record (EMR) system for outpatient, specialty clinics of Khatam al-Anbia Eye Hospital.
- Bacteriologic Evaluation of Adult Dacryocystitis
- Results and success rate of endonasal dacryocystorhinostomy in obstructive lacrimal system disorders. Code Number 83362
- To evaluate effect of erythropoietin in treatment of traumatic optic neuropathy. Code Number 87512.
- Evaluation of prevalence and risk factors of post traumatic endophthalmitis in patients with open globe injury admitted in khatam al anbia eye hospital. Code Number 87255.
- A comparison of visual quality for near vision with contrast sensitivity test in presbyopic patient with or without astigmatic correction. Code Number 87269
- To evaluate efficacy of Gingko biloba in treatment of amblyopia in patients between 7 to 13. Code Number 87405
- A comparison of presbyopia correction with and without astigmatic correction. Code Number 83040
- Comparison of the role of VEP, Color Vision Test & Contrast Sensitivity Test of Compressive Optic Neuropathy in thyroid ophthalmopathy. Code Number 86053
- Evaluation of the role of intravitreal injection of t-PA in treatment of refractory diabetic macular edema. Code Number 87417
- Establishment of DNA banking in patients with genetic eye disease at khatam Al -Anbia eye hospital. Code Number 86666
- To evaluate Clinical management of 54 patient with Marcus Gunn jaw winking ptosis. Code Number 88017
- evaluation of the effectiveness of intravitreal dexamethasone in the treatment of acute post operative and post traumatic bacterial endophthalmitis. Code Number 83494
- Determination of branching angle of retinal arteries in patients with nonproliferative diabetic retinopathy and comparison with normal subjects. Code Number 86668
- Evaluation of ocular manifestations in 50 cases suffering from Buerger's Disease. Code Number 86299
- Short-time comparison of recurrence and complication of two methods of pterygium surgery : subpterygial mitomycin-C injection one month before surgical removal without conjunctival flap versus rotational conjunctival flap and intraoperative mitomycin-C in treatment of primary pterygium. Code Number 87059
- Evaluation of the prevalence of amblyogenic risk factors with Plusoptix photoscreener in 6 to 36

months old children in Mashhad. Code Number 86361

● Outcomes of Artisan intraocular lens insertion for correction of myopia-hyperopia-aphakia. Code Number 86559

● Starting the Electronic Medical Record System (EMR) for practice in Khatam-ol-anbiae especial Eye clinics. Code Number 86667

● Determination of branching angle of retinal arteries in glaucomatous patients and comparison with normal subjects. Code Number 86747

● Frequency of ocular manifestations of hyperthyroidism and severity correlation between the ocular manifestations and disease activity. Code Number 82400

● Comparison of Heterophoria and Fusional Reserves Before and After Refractive Surgery as (PRK) Photorefractive Keratectomy. Code Number 88726

● Comparison Expression of VEGF and TGF- β 1 mRNA in Record of Atopic and Without Record of Atopic patients with Pterygium. Code Number 88429

● Histopathologic Evaluation of eyelid and conjunctival tumors in Imam reza ,Ghaem and khatam al Anbia hospitals in mashhad at ten years period. Code Number 88421

● Evaluation of corneal Cross-linking effects with UVA and riboflavin on the signs and symptoms of bullous keratopathy. Code Number 87794

● Evaluation of IOP change after Botulinum toxin A injection in extraocular muscles of TRO patients. Code Number 88778

● Evaluation of effect of Mitomycin-C on Corneal Endothelial Cell in various methods of Pterygium Surgery. Code Number 88656

● Automated detection of diabetic retinal hard exudates in digital color images by image processing methods. Code Number 89508

● The effect of acupuncture on blepharoptosis and diplopia on cases with resistance ocular myasthenia gravis to current medication. Code Number 89563

● To evaluate effect of erythropoietin in treatment of anterior ischemic optic neuropathy. Code Number 87568

● Amount of the Botulinum Toxin effect in the treatment and fusional control state of Intermittent Exotropia. Code Number 88706

● Intracorneal ring (Keraring ®) implantation in patients with keratoconous. Code Number 88009

● Evaluation of the relation between grade of diabetic retinopathy and density of the conjunctival and episcleral vessels. Code Number 88255

● Evaluation of retinal Redetachment after silicon oil removal in eyes that had undergone vitrectomy because of advanced PDR. Code Number 89030

● accommodative ability in diabetic patients at pre presbyopic ages in khatam alanbia eye hospital in 2010-2011. Code Number 89818

● Assessment of the remission after correction of refractive errors in patients with migraine. Code Number 89850

● Assessment of the remission after correction of refractive errors in patients with migraine. Code Number 900035

● Study of effects of photorefractive keratectomy on hyperopic high angle kappa patients by adjusted the head rotation. Code Number 900432

● Clinical outcomes of photorefractive keratectomy (PRK) in anisometropic children under age 18. Code Number 910197

● An investigation of the effect of spectacle-contact lens combination used as a reverse Galilean telescope on visual field in glaucomatous patient. Code Number 910712

- Evaluation of impact of disposable bilateral punctui and canaliculi occluder on lacrimal drainage system. Code Number 911203
- assessment and comparison of recurrence of pterygium with two surgical methods; conjunctival free graft and combine conjunctival free graft with overlying AMT. Code Number 920308
